Brainkind Neurological Care Centre Lancashire

Brainkind Neurological Care Centre Lancashire is a specialist neurological care service in Fulwood, Preston. As a nurse and therapy-led centre with an integrated, multi-disciplinary, consultant-led neurological rehabilitation team on site, we provide specialist neurological rehabilitation alongside palliative and complex care for people with brain injuries and neurological conditions.

About Brainkind Neurological Care Centre Lancashire

Brainkind Neurological Care Centre Lancashire is a purpose-built residential rehabilitation hub. Opened in April 2020, it provides long-term care and neurological rehabilitation in a **compassionate, person-centred** way to support people in a safe and comfortable environment.

Whether someone needs assistance with daily tasks, help to improve emotional or social skills, or support to regain their physical independence, our services ensure that life with a neurological condition is a **life well lived** – whatever that means to the people we support. We also promote the active involvement of **families** as an important part of the rehabilitation process, from admission through to discharge.

Our centre is equipped with a wide range of facilities to help support the delivery of our expert care. These facilities include 40 fully accessible en-suite rooms and four one-bedroom fully accessible bungalows – all with ceiling track hoists. We also have an onsite hydrotherapy pool, a gym, a rehabilitation kitchen, an activities room, sensory gardens, and a front-of-house café to improve quality of life for the people we support.

Overview

- Forty fully accessible ensuite bedrooms
- Four self-contained supported living bungalows
- A catering team trained to meet a range of dietary needs
- A specialist domestic team providing infection prevention and control
- A specially equipped rehabilitation kitchen
- A specialist rehabilitation gym
- A hydrotherapy pool
- Occupational therapy rooms
- Arts, crafts, and music activity rooms

Facilities

- A safe and comfortable environment enabling people we support to maximise their independence and support their social and emotional needs.
- A dedicated occupational therapy and rehabilitation kitchen with appliances and utensils specially adapted to help those undergoing therapy.
- Chefs who prepare fresh menus designed to meet a wide range of dietary needs.
- A nurse call system.
- A hydrotherapy pool to support people on the rehabilitation programme.
- A dedicated gym for people on the rehabilitation programme.
- Specialist assessment and therapy rooms to aid individuals in recovery.
- An activity room where the people we support can enjoy arts, crafts, and music.
- A well-maintained garden and outdoor living space.

Becoming more independent

Our specialist rehabilitation service includes a needs assessment; community-based activities; educational and therapeutic sessions; personal, social, and domestic skills assistance; and supported leisure activities to enable people to become more independent and live their lives as they choose.

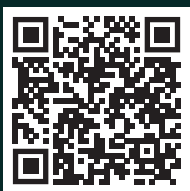

More support

Our long-term residential service offers dedicated 25-bed nursing support with long-term placements and end-of-life care for people with a wide range of long-term neurological conditions such as Motor Neurone Disease (MND), Huntington's disease, Parkinson's, and multiple sclerosis (MS) as well as those with acquired brain injuries.

Conditions we specialise in

We specialise in neurological rehabilitation as well as rehabilitation and long-term support for people with conditions such as MND, Huntington's disease, Parkinson's, and MS. We also support people with one or a combination of the following:

- Cognitive problems, including thinking, memory, problem-solving, learning, awareness, and perception
- Physical impairments that affect mobility, posture, or dexterity
- Communication difficulties
- Disinhibited and / or impulsive behaviour
- Those who are peg fed or require tracheostomy care
- Specialist neurological end-of-life care
