

Residential care home

# Brainkind Bristol Road

**Brainkind Bristol Road is a residential care home providing specialist neurobehavioural support and long-term residential care for people with a brain injury or complex neurological conditions. We make sure that the people we support can live as independently as possible in an environment that enhances their wellbeing.**

## About Brainkind Bristol Road

Brainkind Bristol Road offers specialist, person-centred care and support for people with acquired brain injuries or complex neurological needs. Located within the Bournville Village Trust estate on the outskirts of Birmingham, we help the people we support to regain independent living skills and offer long-term care for those who need it.

Our specialist rehabilitation is based on a neurobehavioural approach. We focus on enabling people to function more independently and develop their lives as they choose. Our programmes include educational and therapeutic sessions; support for personal, social, and domestic skills; guided leisure time; vocational support and training; and access to the local community.

Brainkind Bristol Road is equipped with a wide range of facilities to help support the delivery of our expert care. Our multidisciplinary team has access to specialist assessment and therapy rooms, including a skills-rehabilitation kitchen, to aid the people we support in their rehabilitation and recovery.

The people we support are actively involved in reviewing their progress. We promote the involvement of families as part of the rehabilitation process, and home leave is encouraged wherever possible.

Whether someone needs assistance with daily tasks, help to improve emotional or social skills, or support to regain their physical independence, our services ensure that life after a brain injury is a life well lived – whatever that means to the people we support.

## Overview

- Seven en-suite bedrooms
- Two large communal lounges
- A specialist skills-rehabilitation kitchen
- A large activities room with a pool table
- A large private garden

## Becoming more independent

Bristol Road has a fully-functional flat with a kitchen area and lounge to enable the people we support to move on to independent living.

Access to the wider community forms an important part of our rehabilitation programme. Located close to local shops and leisure facilities and with easy access to Birmingham, Bristol Road is ideally placed for social integration and offers opportunities for education, training, and work placements.

We also have a one-bedroom transitional supported-living flat and access to two more supported-living houses in Birmingham where people can strengthen their skills before moving on to a more independent environment.

## Conditions we specialise in

We provide support for and specialise in the rehabilitation of people with acquired brain injuries or complex neurological conditions who are experiencing one or more of the following:

- Cognitive problems including thinking, memory, problem-solving, learning, awareness, and perception
- Physical impairments that affect mobility, posture, or dexterity
- Physical and verbal aggression
- Communication difficulties
- Behaviours that challenge.

**This is not an exhaustive list. We welcome all enquiries and consider each on a case-by-case basis.**
